Awesome game!!!. still holding really well. Best CS game. Best Game :D. This is the best game. Good game but very outdated just play CSGO instead.. for some reason i didn't do a review for this
no need to say words for valve games except
yes

pros:

gmod textures
gmod textures
gmod textures
gmod textures
gmod textures

cons:

alot of gmod maps are missing textures without this

Runs fine, but I'm only concerned about mounting Counter Strike: Source content to Garry's Mod.. This is the best Counter-Strike I've ever seen. Valve, you have outdone yourself.. I would smash :]. you take deagle and hop and death yes? very nice gaem.. Just like any other online game developed by Valve.
Complete garbage.

The only good things are community-made game modes, models and maps.

. Quite an interesting game, a lot of memories it causes, starting with mixes and ending with clan battles. . installing this game will give you like 90% of your missing gmod textures just for that
